

Premium coffee cup personalisation

Premium reusable coffee cups

Our premium quality reusable coffee cups are sturdy and classic. Available in various sizes and two off-the-shelf colours: black and white.

Did you know that these reusable coffee cups are produced locally in Europe, where they can be personalised according to your brand?

This factsheet gives you all the information you need, to make the cups your own. For alternatives, check out [our catalogue](#).

-> Cup, lid and sleeve made of PP (polypropylene): recyclable in mainstream waste
-> Dishwasher safe up to 80 °C
-> Suitable for hot and cold applications
-> Lid and sleeve available and optional

Basic personalisation

Add your logo or artwork to an off-the-shelf colour reusable coffee cup.

- Different printing options
- Available from just one box**
- Lead time after approved test print: 2-3 weeks

** Minimum order quantities may be higher depending on the local Verive partner.

Advanced personalisation

Execute your reusable cups in a Pantone colour of your choice*, potentially with a print.

- Different printing options
- Minimum quantity: 5.000 cups**
- Lead time after approved test print: 6-8 weeks

* Pantone colours might not transfer to PP perfectly. In collaboration, we find the best match possible for your brand.

Make your brand stand out

The Verive Premium coffee cups can be personalised by laser engraving or tampo printing. This is possible on off-the-shelf colours, but also on a cup in a colour of your choice. How the laser engraving turns out, depends on the colour of the cup. You can personalise your cups from one box with an engraving or print. Check out the associated minimum quantities here.

Laser engraving

No ink is added, maintaining PP's excellent recycling characteristics. Allows for unique QR- or barcodes. Results in a one-coloured output.

Tampo print

Indirect way of printing, either using flexible material to transfer ink to cup (tampo). Up to 4 colours.
